

## LURALITE: decorative glueboard insect control unit.

Luralite™ is an efficient professional insect control unit designed in England. It is the perfect choice for restaurants, cafes, bars, hotels, etc. Luralite™ comes in two versions: **Luralite™ Cento LUR-18** and **Luralite™ Professional LUR-36**. Each model is available in three "off the shelf" colors: White, Silver and Gold. The silver and gold outer cases are painted in a brilliant metallic finish. Customers can even choose a specific RAL color for the outer case. **Luralite™ Professional** accommodates a brighter UV lamp and a larger glue board, which makes the unit more efficient. Both models are very easy to operate. **Luralite™** attracts insects with special pheromone impregnated glue boards, which do not dry out under UV light, thus ensuring the long term efficiency of the machine. Guaranteed to kill all flying insects such as midges, mosquitoes, flies, wasps, moths, horseflies, whiteflies, fungus gnats, chafer, locust, tobacco beetle, carabus, etc.

### Specification

Model	Body color	Protection (m <sup>2</sup> )		Information		UV tube
		Op.	Max.	Dimensions (mm) L x W x H	Weight (kg)	
Luralite Cento LUR-18 W	White	30	90	460 x 210 x 175	2,5	Y518U

### Features

Efficient insect killer with decorative properties.  
Ideal for restaurants, bars, cafes, hotels, etc.

### Quick and easy maintenance

Simple and very quick replacement of tubes and glueboards.

### Highly efficient UV tubes

More efficient and longer serving than standard UV tubes.

### Innovative glueboard

Impregnated with pheromone, covered with non-drying glue.  
Glueboard makes the unit completely silent.

### Warranty

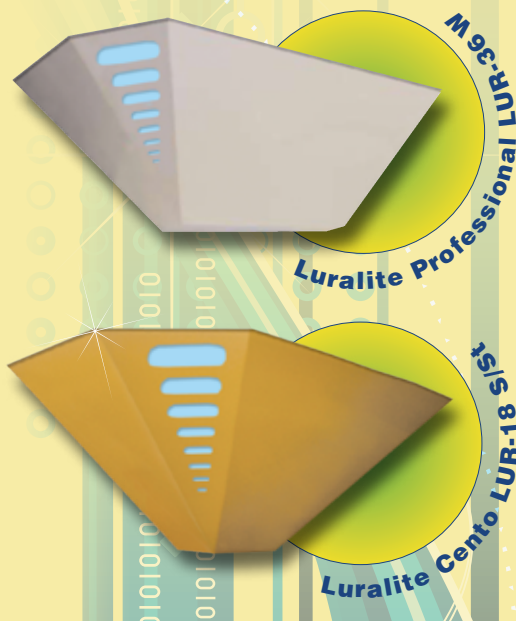

Guaranteed service life of at least 2 years (excluding tubes and starters).

### Quality certificate

Independent RoHS tests prove the unit's compliance with the Euro standards, SanPiN and GOST-R.

### Rugged construction

Full-metal body. Custom case colors.

### Available colors

### KILLS

**ABSOLUTELY ALL FLYING INSECTS:  
FROM SMALL MIDGES TO CHAFER AND LOCUST**

The special pheromone-impregnated glueboard attracts and without fail kills insects such as midges, mosquitoes, flies, wasps, moths, horseflies, whiteflies, fungus gnats, chafer, locust, tobacco beetle, carabus, etc.
