

COMPACT COLLAGENARIUM FOR HOME USE

TAKE CARE OF YOUR FACE AND DÉCOLLETAGE
GET RID OF AESTHETIC SKIN DEFECTS
FIGHT SKIN AGING

The unique technology put to use in YUTEC-COLLAGEN helps women rejuvenate their skin and look younger. The tech was approved by European scientists quite recently. All necessary certificates obtained.

FACE AND DÉCOLLETAGE CARE UNIT

YUTEC (Russia) and **SWG Europe Ltd** (England) thank you for making the right choice.

YUTEC-COLLAGEN – is a light therapy unit that activates elastin-collagen framework from within, without any external manipulation. Collagen is the protein that is the «building material» of the connective tissue, the one that makes skin elastic and soft tissue toned. As you grow older, the body decreases natural production of collagen, which results in wrinkles, flappy skin and poor muscle tone.

UNDENIABLE ADVANTAGES OF **GK-480 YUTEC-COLLAGEN™**

- ✓ Activation of metabolism in subcutaneous fat.
- ✓ Elimination of hyperpigmentation, telangiectasia (spider veins), freckles.
- ✓ Making skin tone consistent and skin itself clean.
- ✓ Low power consumption compared to larger collagenarium units.
- ✓ Correction of stretch marks and cellulite.
- ✓ Collagen and elastin production activation.
- ✓ Elimination of comedones and pores narrowing;
- ✓ Photoaging protection (under ultraviolet light);
- ✓ Wrinkles and folds smoothing, lifting effect;
- ✓ **YUTEC-COLLAGEN** units have air outlets that produce a soft stream of air for your convenience, a feature only found in professional collagen activation systems!
- ✓ **Following your request, high-performance UVA tubes** can be replaced with unbreakable (**shatterproof**) tubes.
